Dear Dr. Jayathilak,

I trust you and your family are in the best of health & safe.

In an era driven by **conscious consumerism**, organisations must ensure that every product with a **reduced carbon footprint** delivers maximum environmental and economic value before reaching its true end of life. It is therefore imperative for businesses to embed **Environmental Management, Health and Safety, Energy Efficiency, and Eco-Innovation** at the core of their operational and strategic frameworks, recognising them as essential enablers of **sustainable industrial development**.

Golden Peacock Awards, instituted by the **Institute of Directors (IOD), India completes 35 glorious years**, and is regarded as a hallmark of Corporate Excellence, both nationally and internationally. This is largely due to its robust transparent evaluation process and determination of clear criteria. No award has achieved such respectability as the Golden Peacock, which today receives around 1000 applications a year for various categories.

Competition brings out the best among our businesses and society. Over the years, the Golden Peacock Award Excellence Model and Certification exercise, based on its internationally recognized Self-Assessment criteria, has helped Industries to think, strategise, assess, march ahead and prepare for the rapidly changing future of work, education, and the economy. Its earnest desire has been and is to recognise the achievements of well performing organizations, in each respective business sector.
